### Meet the Cast OF CHARACTERS!

Coconut had been found as a four-pound, four-week-old puppy on the streets of Charleston, South Carolina. She was just wandering around, lonely and scared. She was also sick, having injuries that made her shake.

Finally, a nice man picked her up. He was a veterinarian, a dog doctor—how lucky was that? He took Coconut to his office and helped her get well. She was not afraid anymore, but she was still shy.

One day a nice lady gave her a bath and trimmed her nails and blew hot air over her fur with a funny machine and then she felt even better. She looked more like a doggie than a little rat.

Someone put her in a van with the name *Noah's Ark* on it and took her for a long ride. There was a big window in the side of the van and Coconut sat there and looked out as they rode along.

At a traffic light, a woman in a red convertible pulled up beside the van. She had blond hair and red fingernails. She looked over and saw Coconut and said...

## GRIZZLY FACTS

- Grizzly bears are great swimmers and even better runners—grizzly bears can run across land at about 35 miles per hour. That's about as fast as a horse!
- Grizzly bears eat a LOT! When preparing for winter hibernation, grizzlies can eat up to 90 pounds of food a day!
- Unlike many animals, bears see in color, just like we do.
- Talk about terrific sniffers—grizzly bears can smell food from miles away!
- Bears are hunters, but they are also grazers. Approximately 75% of what grizzly bears eat is grass, berries, roots, and other plants. The other 25% is fish, deer, elk, rodents, honey, and even insects.
- Standing upright, a grizzly can be more than 8 feet tall!
- Some grizzlies grow to weigh more than 800 pounds!
- Biologists estimate 50,000 grizzlies once lived in the United States. Today, there are only between 1,200 and 1,400 grizzlies in the United States. It is important to protect and respect these rare, wild animals.
- Grizzly bear mothers often give birth to cubs during hibernation.
- Grizzly attacks on humans are very rare, but that does not mean grizzlies are cuddly teddy bears. Grizzlies are unpredictable wild animals and are best left undisturbed.
