

Online Book Club

Mystery at Niagara Falls

Bring It To Life!

1. It is a Canadian tradition to eat maple syrup over snow. In the book, Grant and Christina try maple syrup over ice. As a book club, get some shaved ice and maple syrup and try it! See what other treats you can make up with shaved ice!
2. Have members of your book club bring in as many LEGO blocks as they can. Build a replica of a famous place or building or even create your own LEGO block city.
3. Research Niagara Falls and the different attractions surrounding it. Plan your dream trip to the falls!
4. Use the Internet to see what the current exchange rates are for American currency in Canada. If you only have a dollar, is it worth more in America or Canada?
5. Have each member of the book club draw what their dream Victorian home would look like. Would you have any secret rooms? If so, what would you put in there?
