Adventure to the Eight Wonders of the World

Bring It To Life!

1. What's your wonder? Draw and describe your idea for a ninth wonder of the world! Is it a man-made place, or a natural wonder?
2. Find out more! Pick one of the eight wonders mentioned in the book that you find most interesting. Research the place and make a small model of it. Write cool facts about the place on a poster. Then, set up stations around the room for each wonder and go on a "walking tour" around the world!
3. Do a random act of kindness. Drew and Colette helped each other unselfishly and you can do the same. Have each member write his or her name at the top of a piece of paper. Then, pass all the papers in a circle and have everyone write one thing they like about that person. Show your friends what you appreciate about them!
4. Personality Plus! List all the characters in the book. Then, write three adjectives to describe the personality of each person. See how different people can be, and how they can work together to reach a goal!
