

Help Out “Haz” Matt!

I work for the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia. You learned about the place where I work when you read *The Mystery of Thunderbolt Fort*. My name is Matt, but my nickname is “HAZMAT.”

HAZMAT is short for “hazardous materials.” Hazardous materials can be chemicals, gas, germs, or anything else that harms humans. I wear a biohazard suit to protect myself! Nothing can get through it!

“Haz” Matt has checked out the following items while wearing his biohazard suit. Help him complete the list by indicating if each item helps or harms people.
