Adventure to the Pioneer Prairie

Bring It To Life!

1. Can you imagine life on a wagon train? There would be hard work, but there must have been some fun, too! Write a journal entry about a day on a wagon train.
2. The students were frightened when the flaming arrow came flying past them during the Indian attack. Make your own flaming arrows with red, yellow, and orange construction paper and pipe cleaners!
3. Pretend you've been on the prairie for weeks and weeks. Write a poem about how you think you would be feeling.
4. Imagine you're an animal living on the prairie. What do you think it would be like to see all those people traveling across the land where you live? Gather in groups of three or four and write a short skit pretending to be prairie animals. Perform these skits for your classmates!
