GALLOPADE

Gallopade Curriculum is a comprehensive and flexible social studies curriculum designed to engage students in a robust and interactive learning experience with real-world applications. Gallopade Curriculum is written to align completely with Florida's latest **Next Generation Sunshine State Standards for Social Studies**.

For more than 46 years, Gallopade has partnered with educators and experts to create effective, proven, easy-to-use resources that ensure students learn and retain information and develop the critical thinking skills required for Social Studies success.

In The Classroom

Gallopade Curriculum helps you prepare students to become informed, productive, and responsible citizens.

Why Gallopade?

Gallopade Curriculum is evidence-based and results-oriented, helping students of all learning styles understand and master essential Social Studies content and skills. Proven learning strategies used throughout the curriculum include chunking content into “small bites,” facilitating active learning via engaging activities throughout the text, and blending Social Studies and inquiry in an interdisciplinary approach.

Step-by-step lessons, abundant resources, and purposeful activities support an engaging and interactive learning experience, while also giving teachers the flexibility and tools to differentiate instruction to help every student succeed.

All elements of Gallopade Curriculum work together to create an effective, easy-to-use program. With Gallopade Curriculum, you'll be prepared to guide students through a customized learning experience, positively impacting their mastery of the standards and helping them prepare for college, career, and civic success.

Gallopade seamlessly integrates print and digital resources to create a dynamic learning program that empowers teachers to meet the needs of all learners.

Approved for Florida

Gallopade Curriculum is approved for grades K-5, World History, Civics and Government, and U.S. History for the K-12 Social Studies Instructional Materials Adoption List.

Activities Help Students Build Social Studies Knowledge and Skills

The ancient Greek democracy in Athens included many other important concepts that influenced the foundations of the United States government.

Ancient Greek Influences

The Polis and Civic Participation
Ancient Greek life centered around the polis, or city. But the term "polis" also referred to the "body of citizens." Citizens were central to Greek public life. The Greeks emphasized that citizens were expected to work together to manage the affairs of the community.

✦ The United States needs civic participation in the government to function. Citizens participate in many ways, including voting, protesting, communicating with public officials, and running for office.

Legislative Bodies and Voting Rights
The ancient Greek democracy in Athens was a **direct democracy**. Citizens voted on each law. In ancient Athens, males over the age of 18 with Athenian fathers were considered citizens and had voting rights. These citizens were all part of the **legislative body** or assembly. All citizens were expected to participate.

✦ The United States is not a direct democracy, but it does have legislative bodies which meet to vote on laws. All citizens age 18 or older have voting rights and can elect people to represent them. Congress is the national legislative body.

A Written Constitution
The school of Aristotle, a Greek philosopher, wrote down the constitution of Athens. This written record explained how Athenian democracy operated. A written record ensures that rules and processes of a government are known to all.

✦ The United States Constitution documents how the government operates. It is the "supreme law of the land."

Vocabulary
polis: a city or all citizens are whole
civic participation: engaging with public issues that affect the community
direct democracy: a form of government in which citizens vote on all decisions and laws
legislative body: a group of people with the power to make laws
constitution: a written plan for government

Inference
Based on what you have learned about democracy, why is civic participation important?

Unit 1 Origins of Our Government

Aligns with CC.1.1, CC.1.2, CC.1.4
Integrates with CC.1.1

Chapter 1 Early Influences on the American Political System

How did ancient Greece and Rome influence America's constitutional republic?
As you read this chapter, gather evidence to support your response to this big question!

Greece and Rome Lay the Foundation

The foundations of our constitutional republic are built on ideas and governments from long ago. The Founders of the United States used these early influences to design the system of government we have today. Two of the earliest democracies, ancient Greece and ancient Rome, were the source of many key democratic ideas which inspired the Founders.

The word democracy has Greek roots: it comes from a similar word "demos" meant "people" in ancient Greece.

Influences of Ancient Greece
Ancient Greece was home to many independent city-states. Each city-state is a self-governing region (called a state), consisting of a city and the surrounding territory. The ancient Greek city-state of Athens is considered the "birthplace" of democracy.

A democracy is quite different from other forms of government. Citizens have the ultimate power in a democracy. This is one similarity between the government of the United States and the ancient Greek democracy: citizens are in charge!

Vocabulary
constitutional republic: a form of government which people rule themselves through elected representatives and follow a written plan for government
democracy: a form of government in which the people rule either directly or through elected representatives

Chronological Events

List the three influential documents you just learned about in the order they were written. Then explain the important ideas in each document.

Name of Documents	Important Ideas

An Enlightened Time

The American colonists lived during a period called the **Enlightenment**. The Enlightenment was an 18th century movement that emphasized the use of reason. It was a period of social, scientific, and philosophical advancement in Europe and the Americas.

Enlightenment thinkers throughout Europe questioned traditional authority. They believed that the best way to improve people's lives was through knowledge and reason. Educated colonists read books and essays written by Enlightenment thinkers. The writings of two philosophers in particular, John Locke and Baron de Montesquieu, greatly influenced the Founding of the United States.

John Locke

In the late 1600s, John Locke wrote a book called *Two Treatises of Government*. Locke's ideas on natural law and the social contract influenced the Founding of the United States. In particular, his ideas influenced the Declaration of Independence and the U.S. Constitution.

Natural Law

Natural law is a concept that says certain rights or truths exist beyond governmental laws and are common to all human beings. Locke believed that people had **natural rights** that existed before government and that these rights could not be taken away by government without cause. For Locke, these rights were life, liberty, and property.

Social Contract

Locke believed that people consent to government to protect their natural rights. Locke and other philosophers who wrote during this period called this consent to be governed the **social contract**. For Locke, government was breaking the social contract if it did not protect people's natural rights, and people then had the right to replace the government. Therefore, government is limited by the social contract.

Vocabulary
natural right: a right common to all humans that exists before government and that can't be taken away without cause

Political Maps

A **political map** shows political or government features. Political features include the names and boundaries of countries, states, and cities. Political maps often include a special designation for capital cities. Political map features also include highways, roads, railroads, military bases, and parks.

On most maps, the symbol for a capital city is a star.

Some political data is included on other types of maps. Why? Because political features like boundaries and place names make physical maps more useful. Similarly, political maps often include some physical features, particularly large bodies of water.

Map Skill-Builder

Answer the questions.

- Identify three types of political features shown on this map.
- Explain three ways this map could be used.

Lesson

Use this lesson to help students understand how populism gave people who felt forgotten or mistreated a stronger voice and hope that they might effect change.

SS Reminder | If your students need additional support or remediation, use *The Rise of Populism - Scaffolded* for scaffolded support.

Lesson 2: The Rise of Populism (Standard 8.1-S; 8.6a-d; 8.7a-d; 8.9c-d)

Materials Needed: Primary Source Analysis: William Jennings Bryan and the Election of 1900

Teacher Tips:

- To further engage students in the analysis of primary sources, provide them with magnifying glasses, if available. These can sometimes be located in Science materials!
- You may also choose to project the image digitally to allow you to zoom in on specific symbols or words.

Directions:

1. **SAY:** In the last lesson we learned a lot about technology and the impact it had on American businesses. What effect do you think the rise in businesses and technology had on the agricultural industry?
 - Possible responses/predictions may include: Perhaps farmers benefited from technology as well and used it to develop more efficient farming practices. More people left farming and moved to cities to benefit from new technologies.
2. **SAY:**
 - At the turn of the century, big businesses such as Standard Oil and Carnegie Steel became extremely wealthy. The promise of financial gain and access to new technologies meant many people, especially young people, were leaving rural areas and agriculture in favor of moving to urban areas and seeking industry jobs. This had a significant impact on farmers.
3. Explain to students that next they will learn more about these impacts and the ways that farmers responded in this period in history.

Student Book

Teach the content in **Section 2: The Rise of Populism** through a combination of teacher-led discussion and independent student work.

- Remind students to use the Evidence Collector as they read the Student Book.
- Use *Internet Link: Ocala Demands and the Birth of Populism* to expand instruction.
- Discuss key content and review the activities as a class.

4. After students have read about the rise of populism, distribute *Primary Source Analysis: William Jennings Bryan and the Election of 1900*.
 - Use the Teacher Notes included to facilitate analysis and discussion.
 - You may wish to elevate the observation of the image included in *Primary Source Analysis: William Jennings Bryan and the Election of 1900* by using one of the suggestions provided in the Teacher Tip.

Beyond The Classroom

ONGOING SUPPORT FOR YOUR SCHOOL AND DISTRICT

Our partnership with teachers goes beyond classroom materials. Our team of experts is available to help you with anything you need, from training and support to tips for navigating your tools and online resources with ease.

We offer a wide range of support services, including in-person or virtual training, live webinars, knowledge-based articles, and online chat. Our team is proactively involved in your experience to help you use Gallopade Curriculum to its full potential.

Visit gallopadecurriculum.com/training-and-support to find more information or to get in touch with our team of experts. We're here to help you succeed so you can help your students do the same!

AT-HOME SUPPORT FOR FAMILIES

Families can take an active role in their child's success with at-home digital access to their student's eBook and assignments. Teachers can use our "newsletters" for each unit to provide at-home support and activity ideas to continue learning outside of the classroom.

Enrichment

Gallopade's award-winning enrichment materials further engage students with Social Studies. Enhance your students' learning experiences with books, maps, timelines, primary source packs, and more, on topics found in your state's standards.
