The Mystery at Devils Tower

Bring It To Life!

1. Look at the picture of Devils Tower on the front of your book. Use modeling clay or Play-Doh to make a small replica of the Tower. Use a comb or a toothpick to make the ridges or "bear claw" marks on the side.
2. Play character charades! Write the names of every character in the book on a piece of paper. Place the names in a box. Have one person at a time pick a name and act out that character without making a sound.
3. If you were a paleontologist (a person who studies fossils) in Wyoming, what kind of fossils would you like to find? Draw a picture of what you think your fossils would look like.
4. Use aluminum pie plates to create your own UFO. Have a contest with other club members to see whose UFO will fly the farthest!
