The Rip-Roaring Mystery on the African Safari

Bring It To Life!

1. Draw it! Pretend you are on safari and you've forgotten your camera! Luckily, you have a piece of paper and drawing materials. Draw what you see on the African savanna. Make sure to include what animals you see. Can you see a watering hole? Is there a mountain or hills in the distance? Make your picture look as real as possible so you can show your friends and family when you get home.
2. Plan your own safari! Make a list of all the things you plan to bring along with you. What do you hope to see on your trip? How many days will you be gone? Don't forget to include who will be taking the adventure with you!
3. How's the weather? Ask an adult to help you use the Internet to learn about the weather in South Africa during this time of year. Is it hot and humid or cold and rainy? Compare the weather in South Africa to the weather where you live. Which do you like better? Why?
4. Display the colors! Find a picture of the South African flag and draw a picture of it! What is South Africa's national anthem? About how many people live there? Find three other interesting facts about South Africa and share them with the members of your book club!
